Enemies of the pepper crop

The second line of the first paragraph should read "*Colletotrichum nigrum* E. & H." instead of "*Collectotrichum nigrum* E. & H."

The second paragraph should read:

"Among the important insect pests were larvae of two beetles, a grasshopper, probably *Cyrtocanthacris varia,* and a scale insect, *Aspidiotus destructor* Sign. Besides scale insects, mealy bugs also attacked black pepper plantings in the College." instead of

"Among the important insect pests were larvae of two beetles, *Cyrtanthacris varia* and *Aspidiotus destructor* Sign. Scale insects and mealy bugs attacked black pepper plantings in the College."

The College is appealing to its alumni for donation of the following issues of *The Philippine Agriculturist* to complete its collection in the College Library.
